MATHS CLASS X (CRASH COURSE ICSE)

SL.NO.	CHAPTERS	TIME PERIOD
1	**Commercial Mathematics** • Goods and Services Tax (GST) • Banking	**AS PER REQUIREMENT TO COMPLETE IMPORTANT TOPICS**
2	**Algebra** • Linear Inequations • Quadratic Equations in one variable • Ratio and Proportion • Factorisation of polynomials • Matrices • Arithmetic Progression • Coordinate Geometry	
3	**Geometry** • Similarity • Circles	
4	**Mensuration** • Area and volume of solids – Cylinder, Cone and Sphere.	
5	**Trigonometry** • Using Identities to prove simple algebraic trigonometric expressions • Heights and distances: Solving 2-D problems involving angles of elevation and depression using trigonometric tables.	
6	**Statistics** • Computation of Measures of Central Tendency • Graphical Representation Histograms and Less than Ogive.	
7	**Probability** • Random experiments, Sample space, Events, definition of probability, Simple problems on single events.
